

SUSTAINABILITY

Better Buildings for a Better World

Entegrity is a sustainability and energy services company specializing in the implementation of energy conservation and renewable energy projects. We are uniquely qualified to deliver innovative and sustainable solutions to optimize building performance.

SUSTAINABILITY SERVICES

With over 250 sustainability projects to date, Entegrity is a recognized leader in Sustainability Consulting. Our goal is to identify and integrate viable sustainable design and construction strategies into new construction and existing building projects toward the goal of greater efficiency and a healthier indoor environment. Efficient and effective consulting is achieved with good early design support, an informed team, and a tailored approach to the owner's motivations.

Using a variety of industry recognized certification and benchmarking programs, Entegrity provides prescriptive and performance based sustainability certification options. As a nationally recognized sustainability consultant, Entegrity can support single, prototyped, and/or volume facilities at any phase of a design, construction, or operations building project.

Our team of experts are ready to assist with the integration of sustainable building principles on your next project, whether it is a new construction project, the "greening" of your existing building, or a goal of Net Zero Energy or Carbon. By engaging our clients from early in the design or optimization process, we are able to help project teams optimize energy and environmental performance.

Rating Systems: LEED, Living Building Challenge, Net Zero Energy, WELL, Green Globes, Green Communities, Energy Star, IREM/BOMA, BREEAM, Fitwel, SITES, regional sustainability verifications, and others

Involvement: Full management/administration of the certification process, Arc, feasibility studies, volume/prototype, strategy development, Eco-Charrettes, team training, site impact, marketing support, design/construction/operations phases

QUICK FACTS

42

We've completed projects in 42 states and the Cayman Islands.

100

We have 100 employees in locations throughout the U.S.

8

We're headquartered in Little Rock, AR and have eight offices located across the country.

COMPANY INFORMATION

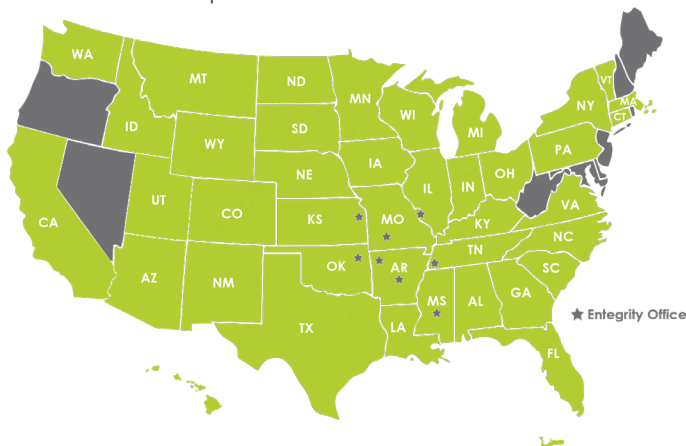

ABOUT US

Entegrity is an independent building consulting firm specializing in sustainability, commissioning, energy services, solar and building testing.

Established in 2007 as a response to the growing demand for independent building commissioning services and sustainable building practices, Entegrity is a leader in sustainable design. We provide innovative solutions to develop and maintain high-performance, energy-efficient facilities that reduce environmental impact and realize significant upfront and lifecycle cost savings. Because we don't provide architectural or mechanical design services or represent any products or manufacturers, we're uniquely positioned to represent our clients in an independent and unbiased manner.

PARTNERSHIPS & AFFILIATIONS

We encourage our team to be well-versed and actively engaged in our industry. We're a proud member of the U.S. Green Building Council; American Society of Heating, Refrigeration, and Air Conditioning Engineers; Association of Energy Engineers; AABC Commissioning Group; Air Barrier Association of America; American Institute of Architects; Building Owners and Managers Association International; and we're an ENERGY STAR® partner.
